**MYRIAD BOTANICAL GARDENS REOPENS WITH DAY OF CELEBRATION**

OKLAHOMA CITY (September, 2011) – A daylong celebration marked the reopening of the renovated Myriad Botanical Gardens. Events included concerts, a farmer’s market and pumpkin patch, free admission to the Crystal Bridge, and a butterfly release. The 28,000 square foot gardens are located in the heart of downtown Oklahoma City.

[Frankfurt Short Bruza](http://Frankfurt Short Bruza) (FSB), an Oklahoma City-based architecture and engineering firm, served as lead architect and engineer for the building projects in association with Gensler during the yearlong renovations.

“As a longtime Oklahoma City firm, it’s been an honor to lead the renovations of a true landmark like the Myriad Gardens,” said Allen Brown, principal at FSB. “The dramatic transformation of the gardens creates more inviting open space with a restaurant, state of the art water features, and sculptures all complemented by the natural surrounding beauty. Already visitors are enjoying the gardens, and we expect many more for generations to come.”

The new design provides a community gathering space for arts, entertainment, culture and botanical education. The Great Lawn and Performance Pavilion now holds up to 2,500 visitors and will host events like concerts, outdoor movie screenings and seasonal festivals. The new Water Stage provides an incredible outdoor stage with theatre seating for 500.

As part of the renovation, FSB marked their 65<sup>th</sup> anniversary with a \$50,000 donation for the acquisition and placement of 65 trees in the Myriad Gardens. Each oak and cypress tree marks a year in business in Oklahoma City for FSB.

“FSB sees this donation as a commitment to future generations of Oklahomans,” said Brown. “The trees are a symbol of strength, sustainability and endurance. This donation is near and dear to our hearts at FSB, as we have been dedicated to the community for more than six decades.”

The trees now line the Great Lawn and Performance Pavilion area of the gardens. A permanent plaque was dedicated to commemorate the donation.

**About Frankfurt Short Bruza**

[Frankfurt Short Bruza](http://Frankfurt Short Bruza) is a full-service, nationally recognized architectural-engineering-planning firm and has been a demonstrated leader in the delivery of quality services for over 67 years. FSB provides expertise in [architecture; mechanical, electrical, plumbing, structural, civil and fire protection engineering](#). In conjunction with exceptional interior design, planning and design-build services, FSB has created places of distinction nationwide.
