**FRANKFURT SHORT BRUZA WINS U.S. AIR FORCE DESIGN AWARD**

OKLAHOMA CITY (Jan. 3, 2013) – The U.S. Air Force recently announced their 2012 Design Awards Program winners. [Frankfurt Short Bruza](http://Frankfurt Short Bruza) (FSB), an Oklahoma City-based architecture and engineering firm, received a Citation Design Award in the (Facility) category for the Headquarters Air Reserve Personnel Center located at Buckley Air Force Base in Aurora, CO.

“The primary purpose of the facility is to accommodate the Air Reserve Promotion Board in their efforts to review and designate promotions for all Air Force Reserve Command and Air National Guard forces serving our country throughout the world,” said Rick Johnson, principal at FSB. “We collaborated with the base commanders and users to design a highly functional facility that accommodates their important work and complements the mountainous surroundings.”

In reviews for the award, one juror stated that the facility “reflects a Colorado design language and reflects a four-season approach to using a large office facility.” The design incorporates natural materials and large windows around the facility that offer mountain views.

“This project is an example of the reward for ‘fighting the good fight’ with respect to design quality,” said John Osborne, FSB architect. “In spite of the multiple challenges we faced, the design was a well-received success.”

**About Frankfurt Short Bruza**

[Frankfurt Short Bruza](http://Frankfurt Short Bruza) is a full-service, nationally recognized architectural-engineering-planning firm and has been a demonstrated leader in the delivery of quality services for over 67 years. FSB provides expertise in [architecture; mechanical, electrical, plumbing, structural, civil and fire protection engineering](#). In conjunction with exceptional interior design, planning and design-build services, FSB has created places of distinction nationwide.
